COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE

Sir:

Applicants gratefully note the allowance of Claims 12-25, 33-36 and 43-45 in the present application. However, Applicants do not necessarily agree with each statement in the reasons for allowance. In particular, not all of the features and/or claim limitations referred to by the Examiner in the reasons for allowance appear in all of the claims. Accordingly, Applicants do not agree to any inference that the claims include limitations not expressly recited therein. While Applicants believe that the claims are allowable, Applicants do not acquiesce that patentability resides solely in the identified feature or combination of features, exactly as expressed by the Examiner, or that the feature or

combination of features identified is required for patentability, or that equivalents of any of the recited features are outside the scope of the claims. Moreover, to the extent the Reasons for Allowance do not separately address the subject matter of each claim, Applicants do not acquiesce to any inference that any one claim does not present patentable subject matter independent of any other claim.

Respectfully submitted,
